ABRSM

On Stage Course

On Stage is an individual music lesson program dedicated to young talents, with a personalized approach that values each student's unique needs and characteristics.

Each learning path is tailor-made with the goal of fully developing the individual's artistic potential. The program includes preparation for ABRSM exams, an internationally recognized certification – and actively supports participation in national and international competitions, offering real opportunities for growth and visibility.

On Stage is more than just a course: it's a complete educational experience, designed to inspire, motivate, and guide every young musician on their path to excellence.

WHAT DO WE OFFER?

- Personalized one-on-one lessons
- Tailor-made educational programs based on each student's needs
- Preparation for ABRSM exams (optional international certification)
- Preparation and support for national and international competitions
- Real opportunities for artistic growth and visibility
- Mentoring and motivational coaching in English

ABRSM

ABRSM is the world leader in music exams and assessments. Every year, over 630,000 candidates take part in its exams in more than 90 countries around the world. OperUs School of Music is the only official ABRSM center in the city of Trieste and, in recent years, has established itself as one of the most important venues at the regional level thanks to the results achieved by both internal and external candidates.

What is ABRSM?

ABRSM (Associated Board of the Royal Schools of Music) is the leading international authority for music exams, with over 630,000 candidates each year in 90 countries. It operates under the authority of four prestigious UK conservatories and boasts over 120 years of experience in music assessment.

ABRSM exams:

- Are progressive and flexible, ranging from the preparatory level up to Grade 8.
 - Are accessible to all ages and support the musical journey with clear goals and official recognition.
 - Provide high-level assessments, internationally recognized, which enrich the student's artistic portfolio.
-

Why Choose ABRSM Exams?

With the reform of the Conservatories—now equivalent to university-level courses—entrance exams are reserved only for those with a high school diploma. This change has eliminated an objective evaluation system for young musicians under the age of 18 (with the exception of music high schools), leading to delays in the recognition of their skills and an increased risk of musical disengagement or dropout.

To address this gap, OperUs School of Music offers ABRSM exams for the following reasons:

- To provide a complete and progressive pathway that motivates students while optimizing both preparation time and costs.
- To offer a solid foundation for future entrance exams to Conservatories.
- The certification is international and permanent, valuable at any age and for any musical path, regardless of Conservatory admission.
- In many Italian schools, it is recognized as academic credit.

We offer personalized learning programs to ensure success in both music theory and instrumental performance.

An aerial photograph of the Trieste Campus sports complex. In the foreground, a large outdoor swimming pool with multiple lanes is visible. Behind the pool, there are several tennis courts, some with blue surfaces and others with red. To the right, a large green artificial turf football pitch is surrounded by a fence. The entire sports area is bordered by a multi-story building with many windows. Trees and other campus buildings are visible in the background.

🎵 **MUSIC FOR EXPECTANT PARENTS**

For parents awaiting the birth of a new child and newborns aged 0-3 months. Workshops aimed at discovering the world through sounds before birth, learning to use sounds as a form of expression and to build relationships, laying the foundations of emotional intelligence.

🎵 **CICOGNA MUSICALE®**

For babies aged 4 to 24 months

Musical workshops that stimulate children to develop their skills in a harmonious way, getting them used to sharing in group discoveries of resonant materials and a dedicated repertoire; with the course goals of stimulating cognitive, emotional and motor development.

🎵 **GROW IN MUSIC**

Level I - Age 2-3 years

Level II - Age 4-5 years

Music workshops exercising child developmental objectives such as memory and concentration. Through stories, games and songs they will learn to recognize the world around them and to exist in harmony with others. They will also have the opportunity to learn the first musical syntax.
